Dear Maggie:

Exclusive Diamonds was the jeweler selected by my insurance company to assist me with the replacement of a very special piece of jewelry. From the very first telephone call, to finally picking up the piece of jewelry, the process was professional, courteous and pleasant. They told me what the process was going to be, in terms of jewel acquisition and recreation of the piece and they delivered on both counts. They proactively kept me informed through the entire process and the craftsmanship of the finished product was outstanding. I would gladly use Exclusive Diamonds for any of my future jewelry. I have told friends and family about their outstanding service.

Yours truly,
